

## NEWLANDS WILL SPEAK HERE

Big Meeting of Young Men's Club on Sept. 27.

## HOWELL ON THE NEW PARTY

SAYS IT WON'T AFFECT CACHE COUNTY.

Senator Newlands of Nevada has promised to address the Democrats of Utah at the banquet to be given by the Young Men's Democratic club of Salt Lake at the Salt Palace on Sept. 27. Elaborate preparations are being made for the occasion. Not less than 3,000 pounds of meat will be distributed to the guests of the occasion. Members of the club are already advising their friends to shape affairs so that they may attend the affair, which gives every promise of being the most successful thing of the kind ever attempted in the state.

Congressman Howell says he has called to counter the new party movement in his home county of Cache, and avers that it is causing him little worry in his section. "I have not heard of it in Cache," he said in the course of a conversation yesterday. "Of course, there are a few non-Mormons up there who might go in for a movement of this kind if it was presented to them properly, but as the thing stands now it is merely a bolt on the part of dissatisfied Republicans and is regarded as spite work. I do not believe it will have any effect in Cache county. You know we do not have any church influence up there, and this movement is regarded as one without merit."

Mr. Howell was in the city for a few hours on his way to move to assist in the celebration of Senator Smoot's wedding anniversary.

"He has the Roosevelt temperament," says the Democrat News in a paid write-up of W. D. Livingston, Republican candidate for Judge of the Seventh district. A man with "the Roosevelt temperament" would be something new on the bench in Utah. A judge with the "Roosevelt temperament" would be combative, impetuous, rash, theatrical, impatient, flamboyant, perturbed, frangible, attitudinizing, partisan, egotistical, self-opinionated, changeable, imperious, petulant, Chauvinistic, valiant, dogmatic, sophistical, contumacious, overbearing, belligerent, pragmatic, swaggering and dictatorial.

And a man with the "Roosevelt temperament" would wear gold braid and epaulettes on the bench. He would throw the statutes through the window and make laws of his own. He would compel the bailiffs to carry sabres, wear cocked hats and enter the court room on prancing steeds. He would make the lawyers tremble when addressing the court. He would station a brass band in the court room and would deal out his decisions to the strains of warlike music. There is no limit to the things he might do. He would not himself be able to tell one day what was coming up the next.

"The Roosevelt temperament" on the bench! Think of it!

Headquarters of the Republican county committee were formally opened in the Atlas block last night. True to his reputation for never overlooking an affair of this kind, Orson Hewitt sent a keg of orange cider, and this, with cigars, constituted the refreshments of the evening. The headquarters embrace the suite lately occupied by the forces of Governor Wells and corresponding rooms across the hall, eight in all. Two reading rooms; Secretary H. H. Smith's room, a stenographer's room and Chairman Edredge's room take up one side. On the other side are two rooms for canvassers and checkers and a room for the use of the Women's Republican club.

A new candidate for a Republican nomination for the lower house was announced yesterday in the form of a carder in the Rio Grande shops. Mr. Reamer's friends expect he will prove to be a strong candidate.

Friends of C. D. Rookledge yesterday announced that owing to the pressure of business, he had found it necessary to withdraw from the race for nomination for county treasurer on the Democratic ticket. This leaves the field open to J. W. O. Carbis and W. H. Farnsworth.

Friends of George F. Felt are doing all they can to bring about his nomination for county treasurer on the Democratic ticket. Mr. Felt has had experience in the office and it is claimed that he would make a first rate official.

A general meeting of the Young Men's Democratic club has been called for Thursday at 8 o'clock to prepare for campaign work.

It is understood the managers of the campaign of the American party have been given assurances of a campaign fund ample to meet the expense of making an exhaustive canvass throughout the state. Willard E. Snyder has been elected state chairman and P. J. Daly state secretary. Other members of the state committee are P. L. Williams, J. D. Wood and A. R. Derge.

Wesley K. Walton of the Republican state executive committee is accused of being editor-in-chief of the official party organ. Corroborative evidence is furnished by the actions of the Rich county veteran. He has been surprised several times lately while in the act of writing in mysterious fashion in obscure corners of the headquarters. When

## SOCIALIST STRIKE IN ITALY

Agitation on the Increase and in Some Parts of the Country the Trouble Has Almost Assumed Proportions of a Rebellion.

ROME, Sept. 17, 3:35 p. m.—The strike has been begun, but is not general. At Naples it has been decided to strike on Monday. In other towns troops are kept in readiness and the police everywhere have been reinforced.

Rome, Sept. 17, 1:45 p. m.—The socialist agitation is on the increase, and especially in the northern part of Italy. In some places it is assuming the character of a rebellion. Another fight has occurred at Genoa

between the strikers and the police. The whole night was passed in darkness and the city was in a state of confusion. The mayor and other municipal officers of Milan came to Rome today to present to the government an expression of the indignation of the population of Milan as the result of what they term the slaughter of the people.

The real cause of the whole agitation is an attempt of the extreme party to overthrow the cabinet since in spite of the fact that it is a liberal ministry, it energetically keeps the extremists in hand.

charged with being responsible for much of the trouble that appears in the official duplex organ, Mr. Walton evaded the issue by saying he was merely doing a bit of work for the committee.

Chairman Bamberger and Secretary Cochran, Democratic state committee, are keeping busy in correspondence with party leaders throughout the state and in attending to other business incidental to getting the state in shape for the election. Advice which come from various sections of the state are of a most encouraging nature.

Former County Treasurer S. H. Lynch is still in the race for the Democratic nomination for county treasurer, reports to the contrary notwithstanding. Mr. Lynch yesterday afternoon that he expected to stay in the struggle until the last vote had been counted. His friends declare that he has a first rate chance to be nominated.

**List of Strong Candidates is Selected.**  
(Special to The Herald.)  
Richfield, Sept. 17.—A harmonious Democratic county convention was held in the county court house in this city today. It nominated a ticket for the coming election that is by far the strongest the Democratic party of Sevier county ever put in the field. It is composed of many leading Republicans that it has a good chance to win.

The convention was called to order by County Chairman H. N. Hayes. James H. Wells of Joseph was chosen temporary chairman, and Mrs. Nora Hansen of Elkhorn temporary secretary. The usual committees were appointed, after which an adjournment was taken to give time for the members to make their reports. The committee reports were read and accepted. Then came in order the election of a full county ticket, which is as follows:

A. B. Williams was chosen chairman of the county committee. The convention was favored with a speech by Joseph H. Hyde of Salt Lake. The Democratic speech on national issues. The mention of the name of that Nestor of Utah Democracy, O. W. Powers, threw the house into an uproar that lasted for several minutes. The convention adjourned with all feeling enthusiastic over the suite lately occupied by the forces of Governor Wells and corresponding rooms across the hall, eight in all. Two reading rooms; Secretary H. H. Smith's room, a stenographer's room and Chairman Edredge's room take up one side. On the other side are two rooms for canvassers and checkers and a room for the use of the Women's Republican club.

**FUSION OX-ROAST AT LINCOLN, NEBRASKA**  
Lincoln, Neb., Sept. 17.—The campaign of the Democrats and Populists of Nebraska who have fused on state issues was opened here today with an ox-roast and picnic at one of the parks. Several thousand people were fed and George W. Borge, fusion candidate for governor, made his first speech of the campaign. He pleaded himself against the free railroad pass system, against the maintenance of a lobby at the capital and against the revenue law enacted by the Republicans. Scarcely any reference was made to national issues or candidates.

**INTER-PARLIAMENTARY PEOPLE ENTERTAINED**  
Denver, Colo., Sept. 17.—The members of the Inter-Parliamentary union, who arrived here late last night, divided into several groups today, various forms of entertainment being offered them by the local reception committee. The day was perfect for sight-seeing.

**MAY GET A PEEK.**  
Oyama Advised to be Lenient With the Correspondents.

Tokio, Sept. 17, 9 p. m.—Owing to the friction between the military authorities and field attaches and correspondents, Field Marshal Yamagata, chief of the general staff, today telegraphed to Field Marshal Oyama, commander in chief of the Japanese forces in the field, the following:

"The imperial declaration of war as proclaimed to the people is universally recognized as being based on the broad principles of justice. It makes no distinction of race, religion or national manners or customs. The sole object of this empire, from the point of view of Orient, spread the blessings of civilization and promote the general interests of all nations. It is, therefore, hoped that these principles will also find expression in the conduct of the war. Officers and correspondents attached to our armies, and that so long as the rule of military secrecy is not infringed, they are free to make such observations as they may deem proper, and to extend to them as that the spirit of sincerity which animates this empire be fully demonstrated to the whole world."

**KUROPATKIN TO NICHOLAS.**  
Russian Army Animated by Desire to Beat the Enemy.

St. Petersburg, Sept. 17.—Under date of Sept. 16 General Kuropatkin telegraphed to the emperor as follows: "The entire Manchurian army rejoices inexpressibly at your majesty's appreciation of its labors and military doings. We are all animated by the desire to beat the enemy and justify the confidence reposed in us by the supreme chief of the Russian army, who may feel perfectly assured of our army's future self-denial and devotion."

"Our departure from Liao Yang was unavoidable and was accomplished under conditions fraught with great difficulty. Even our adversaries upon this occasion were very modest, their report not mentioning the capture of prisoners, guns or other trophies."

"General Kuropatkin's official report confirms the statement that on the morning of Sept. 4 an entire force, which is the strongest of the Japanese armies, was on the right bank of the Taitse river, and if the conditions had been favorable, would have cut off the troops occupying Liao Yang from the rest of the Russian troops operating on the Taitse river."

**NO NEWS FROM THE FRONT.**  
Russian War Office Does Not Think a Battle Imminent.

St. Petersburg, Sept. 17.—There has been an entire absence of official news from the front today. The war office is displaying no special concern as yet over the continual skirmishing on the banks of the Taitse river, which is as the natural desire of the Japanese to keep in touch with the Russian forces rather than a premonitory symptom of a forward movement by the Japanese army. The Japanese army, which the authorities are not inclined to believe can occur within a fortnight unless large reinforcements have been received and the work of getting up supplies has been done more quickly than was supposed to be possible.

The Japanese having been unable to follow up their victory at Liao Yang when the time was ripe, the war office sees no reason for a feverish desire on their part to come in touch with General Kuropatkin now that he has had time to recuperate his forces.

**Depends Upon Kuropatkin.**  
The question whether a big battle will be fought in the vicinity of Mukden is considered here to be dependent chiefly upon General Kuropatkin, as it is not believed that the Japanese will be able to force him to fight at Mukden unless he so elects. The general idea is that if the Japanese actually comes the Japanese will simply outflank Mukden and go direct against The Pass.

The movement of the Japanese land forces and the appearance of a large flotilla in the Liao river are believed to support this view.

While military circles here realize the strategic value of Mukden, there are plenty of sentimental reasons why General Kuropatkin may desire to hold as long as possible the ancient home of the Manchurian dynasty. The Japanese in spite of their military and press reports from Mukden to the contrary, that there will not be a repetition of the battle of Liao Yang at Mukden.

**All Eyes Upon Port Arthur.**  
As far as the public is concerned, interest seems again to be gravitating toward Port Arthur, where the gallant fight of Lieutenant General Stoessel's garrison is being watched with interest. The report that the garrison has been forced to fall back to the use of homemade powder, which is being defective, is considered a discouraging factor. It would be a national disgrace should the defense of the fortress, built through lack of ammunition. More important, however, is attached to military circles to the reports that the Japanese have abandoned the idea of a direct assault and are tunneling the fortifications, and it is believed possible that the end may come at Sevastopol, with a repetition of the dreadful carnage at the Malakoff tower.

**INJURED IN A RUNAWAY.**  
Oklahoma City, Okla., Sept. 17.—After his horse became unmanageable, and in making a turn to avoid a collision with other vehicles, the carriage of Lieutenant Francis M. Kennedy, in charge of the United States recruiting station of Oklahoma, was overturned, and the lieutenant thrown to the pavement. He struck on his shoulder and side and was picked up unconscious. Examination revealed no serious injury, although his escape from instant death was narrow.

He paid and left town.

The residence was a neat brick cottage, well furnished and everything was lost except a few articles of value.

Sheriff Fred William O'Neil and other delegates to the Democratic state convention have arrived home, and are receiving the congratulations of admiring Democracy for the ticket framed at the convention. The Democrats of this section feel that such a ticket, and a united party, victory is assured. There are a number of Republicans here who openly express their disapproval of the methods that have characterized the conduct of affairs within that party recently.

It is very generally noted the head of their ticket, however, but feel that they cannot consistently support the ticket.

An unusual number of students have left the past week for the colleges at Salt Lake. Loam and Provo, Utah, county sends out an ever increasing number of young men and women to these colleges, which speaks well for an outside county.

**ESCAPES PROVO JAIL.**

Thomas Scanlan, Alleged Burglar, Gets Through a Window.

(Special to The Herald.)  
Provo, Sept. 17.—Thomas Scanlan, charged with burglarizing Jonty's store last spring, escaped from county jail this evening at 5 o'clock. He had been permitted to go into the corridor to wash some clothes and got out through a window, of which two bars of the grating had been sawed through. It is believed that Scanlan is in order for a short sentence, who have been in the corridor a great deal of the time, sawed the bars through in order to be ready for an opportunity that might arise to escape. They waited for about an hour after Scanlan had got out before they gave the alarm. Scanlan was seen by citizens going to the depot, and it is thought he caught a train out of town before the officers became aware of his escape. He has been tried once for burglary, the jurors failing to agree, and was being held for his second trial.

**CARNIVAL PLEASES MANY.**

The carnival at the Salt Palace is being eagerly attended and greatly appreciated by the Salt Lake public. The management has provided what is undoubtedly proved to be one of the best shows in the way of sensational free acts ever given in this city. Phil D. Green is an equilibrist of great merit. In the ascent and descent of the spiral tower, amidst a pyrotechnic display of fine proportions, he has made a decided hit.

The Austin sisters in their flying trapeze act and the revolving trapeze are a great attraction. It is too short a time since their appearance in this city under the management of George Laboure, and their performance is too great merit for to have been already forgotten by sightseers. Since their last appearance here, however, they have added many new and startling turns and acrobatic feats, which draw forth rounds of applause from the spectators.

The electric fountain, which closes each performance, is a beautiful display of water and varicolored electric lights, while the Midway, with its various attractions in the way of the latest sideshows, novelty and candy booths, and its concert and vaudeville, dispose of the "Oriental" ammunition, lends zest and color to the entire exhibition.

For today the management of the grand track, who are holding a meet for the Iver Lawson diamond medal fund, have arranged with the carnival managers to throw open the carnival grounds to the patrons of the track without further expense.

**ONE STRONG MAN ENOUGH.**

Czar of Russia Will Hereafter Direct Matters.

Paris, Sept. 17.—One of the highest diplomatic officers here has received an interesting report concerning the court intrigue going on at St. Petersburg. The report says the emperor has definitely declared his opposition to having any strong men like M. Witte exercise authority to the detriment of his own position. This, it is added, is the chief cause of M. Witte's continued retirement and of the emperor's resentment against the late interior minister. The emperor, therefore, has let it be fully understood that there will be no other strong man other than himself. The report also expresses doubt concerning the wisdom of the emperor's action, owing to his inability to play a strong role in statesmanship.
